Medisoft Network Again Available

2017-02-13 - Medical Billing Professionals - Comments (0) - General

The Medisoft Network is available again after our continued work on our network upgrade.

If, after connecting and clicking the Medisoft icon, you get a pop-up message that says the data path cannot be found, click CANCEL.

Then, log out of the vWorkspace.

Then log right back into the vWorkspace. Then click the Medisoft icon again and you should be able to get to the Medisoft login screen.

Thanks,

Steve
