Outlook Outage

2026-11-13 - Medical Billing Professionals - Comments (0) - General

As many of you know, Microsoft has had an outage with Outlook worldwide starting at mid-day on Thursday. We have received sporadic emails since then but as of this writing Outlook is down again.

So if you email us and do not receive a prompt reply remember the outage. In addition, I will be traveling today returning from the Innovations in Psychotherapy conference so that will also disrupt communications.

Hopefully Outlook will be fully restored some time today (Friday, 11/13/26). If so I will be responding to emails (and tickets) on Saturday, 11/142026.

Thanks for understanding.

Steve
