Problem With Online Forms

2018-04-13 - Medical Billing Professionals - Comments (0) - General

We have discovered that there is a problem with our online forms. The Captcha box at the bottom of the forms was updated. For users who log in, they should not have a captcha box on the form. However when they try to submit the form they get an error saying to complete the captcha box.

We have notified our web designers of this issue but are unsure when it will be fixed. As soon as it is fixed, we will post a notice in the News section of the Support Suite.

Thanks for your patience,

Steve
