The Medisoft Network Is Again Available

2019-06-01 - Medical Billing Professionals - Comments (0) - General

The Medisoft Network is again available after repairs to the network. For those who experienced slowness this week, we have moved to a temporary server that is much faster.

In the next few weeks we will be moving to an even faster server as part of a new network. With this new network, providers will have new logins to our server. We will notify you when you will have to select new logins and passwords.

Thanks for your patience during the troubles this past week.

Steve
