## Update on Problem with Medisoft Reports

2017-06-06 - Medical Billing Professionals - [Comments \(0\)](#) - [General](#)

For our Medisoft Network users, we do not have an update as to when the reports function will be working again.

In the meantime, if you need a specific report, please submit a support ticket listing the exact report you want and any specific search criteria.

**Do NOT send a regular email requesting this information. Please be sure to log into the Support Suite and submit a ticket requesting any reports.**

Once the problem with the reports has been fixed, we will post a further update in the News section of the Support Suite.

Thanks,

Steve
