Update to Medisoft Reports--Reports Again Available

For our providers who access Medisoft on our Network, the Reports are again available. We had to uninstall Medisoft Reports Professional but the primary reports providers access, including Custom Reports, are again available.

We will be moving Medisoft to our new servers within the next month and at the time we do not anticipate any problems with reinstalling Medisoft Reports Professional...and also making certain new Version 21 features (like online appointment scheduling) available.

Thanks for your patience,
Steve
