Medical Billing Professionals Support Suite

www.mbpros.com Website Down

2018-04-13 - Medical Billing Professionals - Comments (0) - General

Our website is currently down. We are having our web hosting company look into this but are not sure when the issue will be fixed. During the outage providers will be unable to submit any new patient forms or billing logs.

Once the issue has been fixed, we will post an update in the Support Suite.

Thanks,

Steve
