MEDISOFT UPGRADE ISSUE FIXED

2022-01-24 - Medical Billing Professionals - Comments (0) - General

The Medisoft upgrade issue has been fixed. Providers can now log into Medisoft.

When you log in, if your password was not 8 characters long previously, you will be prompted to enter a new password that is at least 8 characters long. The new password is case sensitive!!

If you have any issues with your password, submit a ticket.

Thanks,

Steve
